# Latvian Women in Science

LASEZE has been established on January 2008.

It started with a conference 'Women in Science in the Nordic and Baltic Countries: Challenges and Resources' on March 31, 2008.

LASEZE, a national non-governmental organization, established in accordance with the decision of the Register of Enterprises of Latvia on January 2008.

# Latvian Women in Science

The aim (1) – to stimulate research and education in Women's studies to support the position of women in science and improve communication between Latvian and European Scientific community.

# Latvian Women in Science

The aim (2) - to achieve equal and full participation of women in all scientific disciplines and at all levels, by creating a network for support and exchange of information, experience and knowledge, organising meetings, seminars and workshops.

# Latvian Women in Science

The current project – Career Development Programs for Women in Science and Technology through Lifelong Learning.

# Latvian Women in Science

The aim of the project – to work out and to propose the new study programs for women with a higher education.

# Latvian Women in Science
